TITLE 2. AGRICULTURE

DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Commissioner of Agriculture and Consumer Services intends to consider amending regulations entitled: **2 VAC 5-20. Standards for Classification of Real Estate as Devoted to Agricultural Use and to Horticultural Use Under the Virginia Land Use Assessment Law.** The purpose of the proposed action is to review the regulation for effectiveness and continued need, including amending the regulation to satisfy the statutory amendment made by Chapter 705 of the 2001 Acts of Assembly. Under that provision, localities are authorized to waive, with respect to real estate devoted to the production of crops that require more than two years from initial planting until commercially feasible harvesting, any requirement contained in the regulation that requires the real estate to have been used for a particular purpose for a minimum length of time before qualifying as real estate devoted to agricultural use or horticultural use. The Commissioner of Agriculture and Consumer Services is to promulgate regulations to carry out the provisions of the act. The agency invites comment on whether there should be an adviser.

The agency intends to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 58.1-3230 of the Code of Virginia.

Public comments may be submitted until 5 p.m., March 18, 2002.

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the State Board of Agriculture and Consumer Services intends to consider repealing regulations entitled: **2 VAC 5-340. Rules and Regulations for the Enforcement of the Virginia Weights and Measures Law.** The purpose of the proposed action is to repeal the weights and measures regulation. Amendments to the Virginia Weights and Measures Law by the 1993 Session of the General Assembly have rendered the regulation ineffective. The 1993 amendments included the adoption by reference of sections of the National Institute of Standards and Technology

(NIST), Handbook 130. The adopted sections of Handbook 130 replaced and eliminated the need for regulations addressing labeling and method of sale. All remaining provisions are obsolete or are adequately addressed by other state laws or regulations. The agency invites comment on whether there should be an advisor.

The agency intends to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 3.1-926 of the Code of Virginia.

Public comments may be submitted until 5 p.m., March 18, 2002.

Regulations for the Enforcement of the Virginia Gasoline and Motor Fuel Law.** The purpose of the proposed action is to review the regulation for effectiveness and continued need. Among matters to be considered are amendments to address changes in the marketplace and technology now in use in the petroleum industry; modify the specifications for gasoline and diesel fuel to update all product specifications and testing methods of the American Society of Testing and Materials; establish minimum standards for all gasoline and diesel fuel sold in the Commonwealth; delete certain outdated provisions; amend the registration requirements of gasoline and diesel fuel to comply with the 1992 amendments to the Motor Fuels and Lubricating Oils Law; and update the notation for documents incorporated by reference to reflect all documents incorporated by the aforementioned actions. the Registration and Certification of Grape Nursery Stock.

Virginia grape nursery stock growers have shown no interest in participation in this voluntary program for more than 10 years. This lack of interest is attributed to the realization that virus-free certified grape nursery stock does not bring any economic benefit when offering the stock for sale. Grape nursery stock that is not certified as virus-free must still meet pest cleanliness requirements or "apparent disease-free" status for interstate movement as required by the Plants and Plant Products Inspection Law (§ 3.1-188.32 et seq. of the Code of Virginia). The agency invites comment on whether there should be an advisor.

Statutory Authority: §§ 12.1-13, 56-235.8, and 56-581.1 of the Code of Virginia.

Summary:

The proposed amendment deletes subsection H of 20 VAC 5-312-100, an existing provision addressing interval metering, from the load profiling provisions. Box 2118, Richmond, Virginia 23218, an original and 15 copies of comments and/or a request for hearing on the February 14, 2002, staff report and Proposed Rules Governing Electricity Metering. All filings shall reference Case No. PUE010298, and a copy shall be served on all interested parties on the service list of this case.

Any request for hearing on the Proposed Rules Governing Electricity Metering shall state in detail why a hearing is necessary. Such a request should identify the factual issues likely in dispute upon which the party seeks hearing, together with the evidence expected to be introduced at any hearing. 20 VAC 5-312-100. Load profiling.

A. The local distribution company shall conduct its load profiling activities in a nondiscriminatory and reasonably transparent manner.

B. The local distribution company shall ensure that profile classes are easily identifiable, that load profiles used are representative of the customer class being profiled, and that

customer loads are represented in a nondiscriminatory manner. Load profiles and load profiling methodologies shall be reviewable and verifiable by the State Corporation Commission.

C. The local distribution company shall provide a competitive service provider, through the appropriate regulatory process, access to sample data, excluding any customer-specific identifier, that is necessary to verify the validity and reliability of load profiles and methodologies.

D. The local distribution company shall use a load profiling method that balances ease of implementation with the need for the load profile to reasonably represent and predict the customer's actual use. The method used shall balance the need for accuracy, cost-effectiveness for the market, predictability, technical innovation, lead time to implement, demonstrated need for market data, and sample bias. The validity of the approach needs to be reconfirmed periodically or as markets evolve, and corresponding load profiles shall be updated accordingly and made available to competitive service providers.

E. The local distribution company shall make available to a competitive service provider the validated and edited customer class or segment load profile via a website in a read-only, downloadable format or by other appropriate cost-effective electronic media. The information shall be date stamped with the date posted and the date created, and the website or other electronic media shall clearly indicate when updated information has become available.

F. A customer's assigned load profile shall remain the same regardless of the provider of electricity supply service. Customer loads that are not metered, such as streetlights, may be represented by load profiles deemed to closely reflect their known patterns of usage.

G. The load sample may include both customers served by the local distribution company, or the default service provider as determined by the State Corporation Commission pursuant to § 56-585 of the Code of Virginia, and customers served by a competitive service provider, such that a customer is not automatically removed from the load sample when the customer begins to receive service from a competitive service provider.

~~H. Upon a customer's request, the local distribution company shall provide interval metering service to the customer at the net incremental cost above the basic metering service provided by the local distribution company. If the local distribution company provides interval metering as the basic metering service in accordance with its applicable tariff, interval metering of a customer's load shall continue to be required if such customer purchases electricity supply service from a competitive service provider.~~

~~H.~~ H. The local distribution company shall post its distribution and transmission loss factors via the appropriate electronic methodology.

20 VAC 5-312-120. Electricity metering.

A. If the local distribution company provides interval metering as the basic metering service in accordance with its applicable tariff, interval metering of a customer's load shall continue to

Proposed Regulations

be required if the customer purchases electricity supply service from a competitive service provider. Unless other arrangements are agreed upon between the local distribution company and the customer, the local distribution company may remove the interval meter if the customer's load deteriorates below previously established interval metering thresholds.

B. Upon a customer's request, the local distribution company shall provide interval metering service to the customer at the net incremental cost above the basic metering service provided by the local distribution company. The local distribution company shall reply to the customer in writing within five business days of the request for interval metering service, acknowledging the request and identifying the prerequisites and proposed process for completing the work. The local distribution company shall complete the work within 45 calendar days, or as promptly as working conditions permit.

C. The local distribution company shall offer each of the following options to customers or their authorized competitive service provider to access unedited interval data consistent with the local distribution company's communication protocol: (i) read-only electronic access to the interval billing meter, (ii) receipt of a stream of data pulses proportional to energy usage, and (iii) both of the foregoing.

D. The local distribution company shall read interval meters at a frequency in accordance with its applicable terms and conditions and shall store interval meter data at intervals compatible with wholesale load settlement requirements. Interval meter data may be estimated on occasion as necessary. The local distribution company shall make available to customers or their authorized competitive service provider 12 months of historical edited interval data through electronic communication medium or mail, as mutually agreed.

E. The local distribution company shall consider reasonable requests from customers or their authorized competitive service provider to evaluate special metering functionality and shall reply to the requests in writing within five business days, acknowledging the request and identifying the cost and process for completing the work. The local distribution company shall complete the work within 45 calendar days, or as promptly as working conditions permit.

GOVERNOR

EXECUTIVE ORDER NUMBER EIGHT (2002)

ESTABLISHING THE GOVERNOR'S ADVISORY COMMISSION ON HIGHER EDUCATION BOARD APPOINTMENTS

The Commonwealth of Virginia is justifiably proud of its outstanding system of higher education. The hard work and dedication of the citizen boards that govern our higher education institutions have been an important part of their success. It is critical to the future success of higher education that we have governing bodies that are inclusive and reflect the diversity of our students, our professors, and our Commonwealth. To achieve our goal of having one of the best systems of higher education in the world, it is vitally important that members of higher education governing boards are selected based on merit, experience, sound judgment, and proven leadership.

By virtue of the authority vested in me under Article V of the Constitution of Virginia, and by Section 2.2-134 of the Code of Virginia, I hereby establish the Governor's Advisory Commission on Higher Education Board Appointments (the "Commission").

The Commission is classified as a gubernatorial advisory commission in accordance with Sections 2.2-134, 2.2-135, and 2.2-2100 of the Code of Virginia. The purpose of this Commission shall be to review and evaluate potential appointees to the governing bodies of Virginia's institutions of higher education, the Virginia Community College Board, and the State Council of Higher Education for Virginia.

The Commission shall have seven members appointed by the Governor and serving at his pleasure. In addition, the Secretary of Education and the Secretary of the Commonwealth shall serve as non-voting ex-officio members of the Commission. Members of the Commission shall serve without compensation.

The Commission shall develop and implement a process for evaluating potential appointees to higher education governing boards based on substantive qualifications such as merit and experience. The Commission also shall make other recommendations to the Governor as may be appropriate.

The Commission shall make its recommendations to the Governor at least 30 days prior to the expiration of the term for which the Commission is making the recommendations. The Office of the Secretary of the Commonwealth shall provide to the members of the Commission copies of resumes and correspondence it receives related to the relevant board appointments.

Such staff support as is necessary for the conduct of the Commission's work during the term of its existence shall be furnished by the Office of the Secretary of the Commonwealth, with support from the Office of the Secretary of Education, the State Council of Higher Education for Virginia, and such other executive agencies as the Governor may designate. An estimated 1,200 hours of staff time will be required to support the commission.

Such funding as is necessary for the term of the Commission's existence shall be provided from sources, including both

private and appropriated funds, contributed or appropriated for purposes related to the work of the Commission, as authorized by Section 2.2-135(B) of the Code of Virginia. Direct expenditures for the Commission's work are estimated to be \$8,000.

This Executive Order shall be effective upon its signing, and shall remain in full force and effect until February 6, 2003, unless amended or rescinded by further executive order. Given under my hand and under the Seal of the Commonwealth of Virginia, this 7th day of February, 2002.

PETITION OF

BIRCHWOOD POWER PARTNERS, L.P.

CASE NO. PUE010719

To operate its qualifying cogeneration facility under PURPA as a non-qualifying generating facility without obtaining a certificate of public convenience and necessity, or in the alternative, application for certificate of public convenience and necessity

ORDER FOR NOTICE AND COMMENT

On December 20, 2001, Birchwood Power Partners, L.P. ("Birchwood" or "Company"), filed with the State Corporation Commission ("Commission") a petition seeking the Commission to declare that its generating facility ("Facility") located in King George County may cease operation as a qualifying cogeneration facility ("QF") under the Public Utilities Regulatory Policies Act ("PURPA") and commence operation as a non-qualifying electric generating facility without obtaining a certificate of public convenience and necessity ("CPCN") from the Commission. In the alternative, Birchwood proposed that if the Commission finds that a certificate is required, the Company's Petition be treated as an application for a CPCN.

By way of background, and as set forth more fully in the Company's Petition, Birchwood is a limited partnership owned by Mirant Birchwood, Inc. ("Mirant Birchwood"), and Cogentrix/Birchwood Two, L.P. ("CB-Two"). Mirant Birchwood is ultimately owned by Mirant Corporation and CB-Two is ultimately owned by Cogentrix Energy, Inc. Birchwood's Facility (the subject of this Petition) has been operated as a QF pursuant to PURPA since 1996. Thermal output from the Facility is sold to Greenhost, Inc., which uses such output to operate a greenhouse complex. The steam-turbine generator has a net electric power production capacity of approximately 242.2 MW. All of the electric capacity and energy from the Facility is sold to Virginia Electric and Power Company d/b/a Dominion Virginia Power ("Virginia Power") under a Power Purchase and Operating Agreement ("PPOA") and a Supplemental Capacity Power Purchase and Operating Agreement ("Supplemental PPOA") between Birchwood and Virginia Power.

According to the Petition, the Facility is fully dispatchable, based upon Virginia Power's demand requirements. The Company states that both the PPOA and the Supplemental PPOA explicitly recognize that Birchwood may operate the Facility as a QF or a non-QF electric generating facility. Furthermore, Birchwood states that the PPOA will expire in 2021, unless extended, and that the Supplemental PPOA expires in 2003, unless extended. The Company indicates that both the PPOA and the Supplemental PPOA resulted from bidding procedures implemented by Virginia Power and approved by the Commission. Thus, according to the Company, none of the foregoing is predicated on the Facility maintaining its status as a QF.

The Company also indicates in its Petition that Birchwood has obtained authorization from the FERC to own and operate the Facility as an exempt wholesale generator ("EWG"). Further, the Company states that to operate as a non-QF electric generating facility, Birchwood will also seek FERC approval of its wholesale sales rates.

At the heart of this application is Birchwood's plan to cease operating the Facility as a QF and to operate it instead as a non-QF electric generating facility. Thus, according to the Company, the Facility no longer will be required to meet the technical requirements of a cogeneration QF, producing both steam and electricity for sale, but instead may operate solely as an electric generating facility. Birchwood believes that, as a matter of law, it is not required to obtain a CPCN from the Commission in order to operate the Facility as a non-QF electric generating facility. Therefore, the Company seeks a declaratory ruling from the Commission that no certificate is required for that purpose. In the alternative, Birchwood states that if the Commission determines that a certificate is required, then the Company requests the Petition be treated as an application to the Commission for a CPCN.

Birchwood argues in its Petition that the Virginia Utility Facilities Act ("Facilities Act"), Va. Code § 56-265.1 et seq., requires a public utility to obtain a certificate in two sets of circumstances, neither of which—in the Company's view—are pertinent to the Company's plans to operate as a non-QF. Birchwood first asserts that Va. Code § 56-265.2 does not apply to it because the Company does not seek to "construct, enlarge, or acquire" any facility. Secondly, the Company contends Birchwood does not have to obtain a certificate under Va. Code § 56-265.3 A, which makes it unlawful for a public utility to furnish public utility service in an exclusive service territory without having first obtained a certificate, because Birchwood is not furnishing traditional "public utility service." Inasmuch as Birchwood (as a non-QF) does not seek to furnish public utility service within an exclusive territory but only intends to operate its electric generating facility to sell to power to Virginia Power for resale under negotiated agreements, the Company argues that this fact lends further weight to its view that the Facilities Act's requirements for certification are inapplicable in these circumstances.

The Company notes in its Petition that the Commission has required certain independent power producers to obtain certificates pursuant to Va. Code § 56-265.2, but not pursuant to Va. Code § 56-265.3, and that the Commission has not issued rules to guide applications to "operate" generation

General Notices/Errata

facilities similar to the circumstances presented here. In addition, Birchwood explains that § 56-577 A 3 of the Virginia Electric Utility Restructuring Act, Va. Code § 56-576 et seq. ("Act"), provides that the generation of electricity shall no longer be subject to regulation under Title 56 other than as specified in the Act. Birchwood points out that the Commission, in the recent case establishing new rules for "merchant plant" electric generation facilities, relied on that provision of the Act in holding that § 56-265.2 will no longer apply to applications to construct new generation in the Commonwealth on and after January 1, 2002.¹ The Company argues that although the Commission limited its ruling in PUE010313 to the impact of the Act on Va. Code § 56-265.2 (and § 56-234.3), the rationale supporting that ruling applies to § 56-265.3 and, thus, Birchwood should not be required to obtain a CPCN in this case. Finally, the Company argues that if the Commission determines a CPCN is required, the operation of the facility as a non-QF would satisfy the "public convenience and necessity" as the Commission has applied that phrase in granting CPCNs to electric generation facilities.

Birchwood's petition raises a number of issues not previously addressed by this Commission. The generating facility in question was constructed and operated as a qualifying cogeneration facility pursuant to PURPA. The Commission did not issue certificates for these facilities at the time they were constructed based on its interpretation of PURPA. The facility now wishes to operate solely as an electric generating facility in the Commonwealth and not as a PURPA-qualified entity, selling power at wholesale to one customer, Virginia Power. Many of the issues brought forth by the Petition involve the scope of the Commission's authority under relevant provisions of the Facilities Act and the Act, particularly, Code §§ 56-265.2, 56-265.3 and 56-580 D, as well as FERC's authority under various provisions of PURPA and other relevant statutes.

NOW, in consideration of the foregoing, the Commission is of the opinion and finds that this matter should be docketed and interested persons be given notice and provided an opportunity to file comments on Birchwood's Petition.

Significantly, Birchwood is representative of a number of QF facilities in this Commonwealth that were constructed as QFs under the aegis of PURPA and operated as such under PURPA's cogeneration constraints. However, these QF facilities were not required to obtain certificates of public convenience and necessity under Virginia's Facilities Act as a prerequisite to their construction and operation. Consequently, Birchwood's application puts this Commission in the unusual posture of passing on the Facilities Act's certification requirements with respect to a plant that is already sited, constructed, and operational.

Birchwood's legal arguments set forth in its Petition amply demonstrate that neither the Facilities Act nor the Act's "merchant plant" statute (§ 56-580) provide an explicit answer

to the overarching legal issue this application presents: What certification or approval, if any, is required from the Commission in conjunction with the transformation of an operational QF facility within the Commonwealth into non-QF facility? Because the outcome of this issue is significant not only to the Company and others like it but also to Virginia's wholesale market in connection with the movement to retail competition, we believe that stakeholders and other parties interested in this issue should be provided an opportunity to comment thereon.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUE010719 and all associated papers shall be filed therein.

(2) On or before March 27, 2002, the Commission Staff and any interested persons may file an original and fifteen (15) copies of written comments on the Petition with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218. Comments shall refer to Case No. PUE010719. A copy of any comments filed shall also be served on Birchwood's counsel, Edward L. Petrini, Esquire, Christian & Barton, L.L.P., 909 East Main Street, Suite 1200, Richmond, Virginia 23219-3095.

(3) On or before April 9, 2002, the Company may file its response to the comments filed.

(4) The Company shall publish on or before March 4, 2002, as display advertising (not classified) in a newspaper or newspapers of general circulation in King George County, and the Commission Staff shall have published in the next volume of the Virginia Register of Regulations, the following notice:

AT RICHMOND, FEBRUARY 14, 2002

COMMONWEALTH OF VIRGINIA

At the relation of the

STATE CORPORATION COMMISSION

CASE NO. PUE010297

Ex parte: In the matter of establishing rules and regulations pursuant to the Virginia Electric Utility Restructuring Act for consolidated billing services

ORDER GRANTING MOTION FOR EXTENSION

On February 7, 2002, the Staff of the State Corporation Commission ("Staff"), by counsel, filed with the State Corporation Commission ("Commission") a Staff Motion for Extension to File Proposed Rules and Report ("Motion"). The Motion requests that the Commission extend the time for the Staff to file proposed rules for consolidated billing services, and the Staff report in support of such proposed rules, from February 14, 2002, and February 28, 2002, respectively, to May 24, 2002 (for both the proposed rules and Staff report). The Motion also requests a corresponding extension in the time for interested parties to file comments and requests for hearing on the proposed rules and Staff report from March 22, 2002, to June 27, 2002.

Section 56-581.1 of the Virginia Electric Utility Restructuring Act (the "Act") requires the Commission to promulgate rules and regulations for competitive billing services, including consolidated billing.

In support of the Motion, the Staff described in some detail the efforts of the work group formed to assist the Staff in developing proposed rules. The Motion explained that at an October 2, 2001, work group meeting, several participants volunteered to participate in a subgroup to identify competitive service provider ("CSP") consolidated billing issues and develop a "strawman" rules document. The subgroup developed an extensive issues list, but was unable to develop a strawman. The Staff advised that the full work group met eight days during December, January, and February to discuss and evaluate the issues identified by the subgroup, and has two additional meetings scheduled for late February.

The Motion states that during the course of the work group meetings, the Staff developed a fuller appreciation of the complexity of issues associated with CSP consolidated billing. The Staff explains that when the CSP performs consolidated billing, one party, the CSP, controls the issuance of the bill and the processing of customer payments while another party, the LDC, controls service disconnection activities for non-payment of its regulated charges. This separation of responsibilities may result in increased opportunities for confusion that, in turn, could be potentially detrimental to the advancement of competition in the Commonwealth.

The Staff contends that due to the complexity of issues associated with CSP consolidated billing, and based on its opinion that additional analysis and input from the work group are necessary to develop proposed rules that will reasonably ensure billing accuracy and timeliness, as well as minimize the potential for confusion and unwarranted credit action against consumers, the Staff requires additional time to develop proposed rules for CSP consolidated billing.

The Staff believes it is essential that the work group identify and perform a more comprehensive and detailed review than originally anticipated of possible billing scenarios with respect to assumptions regarding customer switching, payment remittance, arrearages, payment arrangements, pending disconnection, budget billing, multi-period billing adjustments, bill cancellation and rebilling (catastrophic and minor data processing, billing and metering errors), and other key variables. According to the Staff, this detailed level of review

General Notices/Errata

may require significant interaction with and assistance from the Virginia Electronic Data Transfer Working Group that oversees the development of standardized business practices and electronic data communication protocols.

The Staff notes in its Motion that several incumbent electric utilities have advised the work group that approximately nine months will be required for the development and testing of electronic data exchange protocols and LDC billing system modifications subsequent to the Commission's adoption of final rules. The Motion advises that the Commission should reasonably anticipate that parties to this proceeding will request a delay, as provided for in § 56-581.1 C, beyond the January 1, 2003, target date for CSP consolidated billing.

In further support of the Motion, the Staff states that, at present, only one supplier in Virginia, The New Power Company, has expressed significant interest in CSP consolidated billing; and that The New Power Company has informed Staff that it does not object to this requested extension. The Staff further states that, on February 5, 2002, it informed all persons having filed a statement of interest in this proceeding of the Motion, and was advised by the following interested parties that they do not object to the requested extension: AES New Energy; Allegheny Energy Supply Company; Appalachian Power Company d/b/a American Electric Power - Virginia; Delmarva Power & Light Company; Itron; Virginia Electric and Power Company; Division of Consumer Counsel, Office of Attorney General; The Potomac Edison Company d/b/a Allegheny Power; and the Virginia, Maryland & Delaware Association of Electric Cooperatives. No interested party has opposed the Motion.

NOW THE COMMISSION, having considered the Motion, the absence of opposition from interested parties, and the applicable law, is of the opinion that the request is reasonable and should be granted.

Accordingly, IT IS ORDERED THAT:

- (1) The February 7, 2002, Staff Motion for Extension to File Proposed Rules and Report is granted.
- (2) The time for the Staff to file proposed rules for consolidated billing services is extended from February 14, 2002, to May 24, 2002.
- (3) The time for the Staff to file a report on its proposed rules for consolidated billing services is extended from February 28, 2002, to May 24, 2002.
- (4) The time for interested parties to file comments and requests for hearing on the proposed rules and Staff report is extended from March 22, 2002, to June 27, 2002.
- (5) The Staff and interested parties shall, except as otherwise provided above, make their filings in accordance with ordering paragraphs (7) and (8) of the Commission's May 15, 2001, Order Establishing Proceedings in this case.

AN ATTESTED COPY hereof shall be sent by the Clerk of the Commission to:

DEPARTMENT OF ENVIRONMENTAL QUALITY

Total Maximum Daily Loads (TMDLs) for Benthic Impairment

The Department of Environmental Quality (DEQ) and the Department of Conservation and Recreation (DCR) seek written and oral comments from interested persons on the development of a Total Maximum Daily Loads (TMDLs) for benthic impairment on the following streams: Castaline Spring Branch (0.8 miles), Cockran Spring Branch (0.8 miles), Coursey Springs Branch/Pheasanty Run (0.43 miles), Lacey Spring Branch (0.2 miles), Montebello Spring Branch (0.02 miles), and Orndorff Spring Branch (0.15 miles). The

Castaline Spring Branch segment, located in Augusta County, begins at the Castaline Trout Farm discharge and extends to the confluence with Byrd Spring. The Cockran Spring Branch segment, located in Augusta County, begins at the Castaline Trout Farm discharge and extends to the confluence with Middle River. The Coursey Springs Branch/Pheasanty Run, located in Bath County, begins at the Coursey Springs Trout Cultural Station discharge and extends to the confluence with Cowpasture River. The Lacey Spring Branch segment, located in Rockingham County, begins at the Shenandoah Fisheries Trout Farm discharge and extends to the confluence with Smith Creek. The Montebello Spring Branch segment, located in Nelson County, begins at the Montebello Fish Cultural Station discharge and extends to the confluence with Mill Creek. The Orndorff Spring Branch segment, located in Shenandoah County, begins at the Orndorff Trout Farm discharge and extends to the confluence with Cedar Creek.

Virginia's 1998 § 303(d) TMDL Priority List and Report identified the segments as impaired due to violations of the state's water quality for General Standard (Benthics). Section 303(d) of the Clean Water Act and § 62.1-44.19:7 C of the Code of Virginia require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's § 303(d) TMDL Priority List and Report.

The final public meeting on the development of the TMDLs for the six segments will be held on Wednesday, March 27, 2002, at 7 p.m. in the Conference Room at the Department of Environmental Quality, located at 4411 Early Road, Harrisonburg, Virginia 22801. The draft TMDL study will be presented at this meeting.

The public comment period will end on April 19, 2002. A copy of the draft TMDL document addressing the benthic impairment for the six segments is available upon request. Questions or information requests should be addressed to the individual listed below. Written comments should include the name, address, and telephone number of the person submitting the comments and be sent to Sandra Mueller, Department of Environmental Quality, 4411 Early Road, Harrisonburg, VA 22801, telephone (540) 574-7848, FAX (540) 574-7878 or e-mail stmueller@deq.state.va.us.

Total Maximum Daily Loads (TMDLs) for Cooks Creek and Blacks Run

The Department of Environmental Quality (DEQ) and the Department of Conservation and Recreation (DCR) seek written and oral comments from interested persons on the development of Total Maximum Daily Loads (TMDLs) for Cooks Creek and Blacks Run: they are listed on the 1998 § 303(d) TMDL Priority List and Report as impaired due to violations of the state's water quality standards for Fecal Coliform and Violation of the General Standard (Benthics). The Cooks Creek stream segment begins at the headwaters and continues to the confluence with the North River. The segment is 13.32 miles in length and is listed for Fecal Coliform and violation of the General Standard (Benthics). TMDLs will be developed for both impairments (Fecal Coliform and Benthics). The Blacks Run segment is 10.74 miles in length: it begins at the headwaters and ends at the confluence

with Cooks Creek. This segment is listed for violation of the General Standard and for Fecal Coliform. This group of TMDLs only covers the Benthic portion of the impairments in Blacks Run.

April 12, 2002 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Department of Medical Assistance Services intends to amend regulations entitled: **12 VAC 30-90. Methods and Standards for Establishing Payment Rates for Long-Term Care (Nursing Home Payment System)**. The proposed regulation replaces the current Patient Intensity Rating System (PIRS) method of classifying nursing facility residents with the Resource Utilization Groups-III (RUGs) methodology, as directed by the 2000 General Assembly (Chapter 1073 of the 2000 Acts of Assembly, Item 319 MM). The proposed regulation also reclassifies nursing staff costs for quality assurance services as direct patient care costs rather than indirect costs and establishes a new method for calculating inflation in the nursing home payment system.
